Accounting Software ★★

Lab Device Integration ★★★

HRMS ★★★★★

Mobile Interface

★ Includes all the basic functions related to OPD, IPD, and walk-ins that are to be handled by the front office like Registration of patients, Ordering Services, managing appointments, etc.

★★ Accounting Software integration will be done only on specific need of a customer.

★★★ Lab Device Integration will be done based on need of a customer and customer has to expose the API's of the device interface to Spigot HMS software.

★★★★ This also can be given along with standard and advanced module as an A-La-Carte module.
